

Yealink VB-TabletopMount-02 Datasheet

Introduction

The VB-TabletopMount-02 is designed for the Yealink MeetingBar A50 and works with the WallBracket(VB-WallMount-02). It securely places the A50 on any flat surface, ensuring device stability. Installation is simple, requiring no drilling, thanks to its unique buckle design.

Adjustable screws on the stand's base allow users to tilt the device up to 7°, ensuring optimal viewing angles. Its modern design integrates seamlessly with office environments, enhancing professionalism. Whether in an office or conference room, VB-TabletopMount-02 provides reliable support, optimizing the meeting experience.
